Hi, Sujatha,

I saw a label come in the front end yesterday, but I don't think it is the additional states one. I will check the stack of new work that landed on my desk this morning and let you know if it's here. I know they have not sent in the bat info yet, they were still wrapping it up late last week.

Thanks,

Kay

Kay

I am not sure if you would be in today. In case you are, can you please let me know what the status is of the 2,4-D package (for other states). Is it in RD now? Also, the registrant mentioned last time that they will be providing the ESA, specific to Indiana bat. Can you please follow-up with them on when we can expect it. Thank you.

Sujatha
